

*If you have already
installed SDBOX Demo
or earlier version then
follow steps 1,2,3 before
proceeding!*

*(Otherwise close this and
continue the installation).*

Steps 1,2,3

For the installation process to work properly you must:

1. Uninstall existing SDBOX from CAD.
2. Close CAD.
3. Rename folders SDBOX and sdbox_Tools with the suffix *_OLD.

STEPS IN DETAIL

1. In AutoCAD: Apply ****Start SDBOX**** and enter (unsdtopo) at the command line.

—

2. Close CAD.

—

3. Rename the following folders:

C:\SDBOX → C:\SDBOX_OLD (The path "C:" is indicative.)

and

C:\sdbox_Tools → C:\sdbox_Tools_OLD

**If steps 1,2,3
are completed
then you can
continue.**

• Close this and continue to the installation wizard
