

layers | SECTION PLAN

ANALYSIS OF LAYERS PROPOSED WHEN DRAWING A SECTION PLAN WITH **sdbox**

L A Y E R	Description
ANNO-DIMS	Dimensions.
ANNO-ELEV-MARK	Elevation marks (symbol and text).
ANNO-ELEV-MARK-A	Aligned Elevation marks.
ANNO-NOTE-IN-SITU	Notes for on-site inspection of the Project. It is printed in red. When printing the final design this layer should be set off.
ANNO-NOTE-PERS	Personal notes on the plan. It should be set off when printing.
ANNO-TEXT	Annotations.
ANNO-TEXT-A	Level indicators (in alignment).
CLNG-COVR-SECT	Section of ceiling coverings.
DATM-LEVL	Line for datum level.
FCEL-SECT	False ceiling section.
FLOR-SECT	Section of floor coverings.
FRMS-DOOR-WIND	Sections and projections of internal and external frames
GRND-SECT	Ground section.
MISC	Auxiliary-complementary elements of the plan.
MISC-SECT	Sections of auxiliary-complementary elements of the plan.
PROJ-DIST1	Projections of structural elements on the first level.
PROJ-DIST2	Projections on a second level or of secondary importance.
STRC-BRNG-COLS-PATT	Hatch for columns, concrete walls and any bearing structure.
STRC-BRNG-COLS-SECT	Sections of columns, concrete walls and any bearing structure.
STRC-ELEM-PATT	Shading for section of any structural elements (usually in the case bearing structure is not distinguished in the design).
STRC-ELEM-SECT	Sections of any structural elements (usually in the case bearing structure is not distinguished in the design).
TTLB-LEGN	Title block and Legend.
WALL-COVR-SECT	Wall cladding sections.
WALL-SECT	Wall sections.
